Tours of the High School

Tours will last approximately 45 minutes and will be followed by a brief informational Q&A.

The state approved Arlington's Schematic Design in April and will contribute an estimated \$86M to the \$291M project. If the June debt exclusion is approved, a final year of design work would start this summer. Construction could begin as early as summer 2020 with the first buildings available to students in early 2022.
