### **FY12 Superintendent's Proposed Budget at a Glance**

- This budget is the sixth in a series of annual budgets which have required service reductions at the School Department.
- To preserve all School Department activities at the same level as FY11 and provide for expected Special Education growth in FY12, the Arlington Public Schools would need \$46,535,421 for an annual budget.
- Instead, our expected funding will allow us a FY12 budget of \$43,676,822.
- Over the past five years reductions have been made in all aspects of school function: administration, support staff, facilities, educational supplies and materials, curriculum leadership, student support services and direct instruction.
- Over the same five years, fees for full day Kindergarten, Instrumental Music, Menomony Preschool and High School Athletics have all been increased. Tuition fees for foreign students and group home special needs students are being collected to help offset operating costs.
- With a mission to preserve the classroom experience for our students, cuts in prior years have been made to every possible area before turning to classroom teacher reductions.
- However, after so many years of reductions, there is no choice but to reduce teachers in order to live within our financial means.

<b>Funding Summary</b>	<b>FY11 Budget</b>	<b>FY12 Proposed Budget</b>	<b>Change</b>	<b>Percent</b>
Town Appropriation	36,888,841	38,516,006	1,627,165	4%
ARRA Stimulus Funding	914,555	-	(914,555)	-100%
Grants	2,414,044	2,156,000	(258,044)	-11%
Revolving Fees & Reimbursements	4,605,391	3,004,815	(1,600,576)	-35%

## **FY 2012 Superintendent's Budget Message**

Looking back at the last school year, the Arlington community can be very proud of its schools. Our students continue to perform at high levels in academics, performing and visual arts, athletics, and community involvement. Very able, professional, and hardworking teachers and staff support their efforts daily. The achievement of our students has been recognized by the US Department of Education with a Blue Ribbon Award for Stratton; the Commonwealth of Massachusetts, with a commendation for high MCAS achievement; and by private organizations such as Boston Magazine who calls Arlington High School one of the top 50 high schools in Massachusetts, and US News & World Report, who awarded Arlington High School a Silver Medal.

Our expectation and hope for FY12 is that this success will continue and we will also improve. However, FY 12 will present challenges. We know that our ability to provide the support and services that has been essential for past success will be compromised by the projected budget shortfall. The expected \$2.9 million shortfall for the 2011-2012 school year follows on the heels of a \$3.9 million budget reduction affecting the current year. Only a painful \$500,000 increase in fees this year kept our shortfall from being \$4.4 million in FY11. Indeed, the impact of the shortfall in FY12 is made even more even more painful because it actually follows several years of reductions. These previous reductions now restrict the ability of the district to continue to largely shield students from cuts to direct instruction when faced with making additional budget cuts. In FY12, the district is forced to reduce the number of classroom teachers to a level not seen in recent times.

### **Construction at Thompson**

On Wednesday February 9, the Thompson School received approval for new construction from the Massachusetts School Building Authority. Our architects are now at work creating the plans for this new school building. With an eye to the long-term interests of the district, this proposed budget incorporates a major change for the Thompson School. We are proposing to close the Thompson at the end of this school year in order to expedite the re-building process.

## Section 2

Closing the Thompson at the end of June will assist the district in two primary ways:

1. It will allow the district to bid out and begin construction as early as possible, without needing to wait for the end of another school year, or to move children mid-year. We will be able to bid the project and begin construction in advance of other newly approved school building projects in the area. We expect that this will help lower our overall project costs.
2. The Thompson School physical plant is presently very difficult to maintain in good working order. Major building systems, including the roof, boiler, hot water and windows are on their last legs. Keeping the building open for another year runs the risk of requiring major and expensive emergency repairs. With the knowledge that this building has been approved for replacement, further investment is only a drain on our fiscal resources.

At this point in time, we expect the Thompson students to move as a community, with their teachers, to two or three other elementary schools in the district, as has been done with previous school re-builds.

The proposed reductions for FY12 reflect this temporary closing of Thompson. The reductions associated with the Thompson School throughout this budget do not indicate particular individuals, only a contraction of overall positions.

### **Developing the FY12 Budget**

FY12 will be the sixth consecutive year of service reductions in the Arlington Public Schools. Over the past five years, serious reductions have been made to all aspects of school function: administration, support staff, facilities, educational supplies and materials, curriculum leadership, student support services and direct instruction. With a mission to preserve the classroom experience for our students, cuts in prior years have been made to every possible area before turning to classroom teacher reductions. However, after so many years of reductions, there is no choice but to reduce teachers in order to live within our diminished financial means.

School funding from all sources has declined over the years, with FY12 expected to be no exception. The national economic situation has constrained the ability of state and local governments to provide sufficient support to local school districts. The Federal Government attempted to fill the gap with ARRA Stimulus funding in the three prior years, but the Federal Government will not provide this support in FY12. Federally supported grants have likewise declined in this economy as the Government has shifted resources to Stimulus funding. In an attempt to offset some of these revenue losses, the Arlington Public Schools have increased fees dramatically.

The five year plan approved by voters at the time of the 2005 override expired at the end of FY10. At the beginning of the five year plan, it was expected that another override would be placed before the voters in order to support FY11 with additional revenues. This override vote did not take place. With Arlington virtually completely developed, and with a minimal commercial tax base, our annual growth in tax revenue is essentially limited to 2-1/2%. In order to maintain our level of services, we must seek and obtain an override at regular intervals. Two and one-half percent is not enough to keep services stable.

### **Impact of Budget Reductions**

Principals have already presented to the School Committee and the public the projected impact of additional resource constraint on the district's schools. These impacts are briefly summarized here, but can be read in full on the district's website. These impacts are directly caused by reduced numbers of classroom teachers.

Elementary Principals expect:

- an increase in average class size to 28, with some classes having as many as 33 students
- elementary students will receive only the state minimum of one day a week of Physical Education
- elementary students will receive only half the district's traditional level of art and music instruction
- teacher losses will reduce the amount of high quality interactions among students, and between students and teachers
- Principals also expect there will be decreased opportunities for professional conversations among teachers about their students' learning

These interactions are the hallmarks of rich academic, social and cultural learning, which we regretfully fear may now be at risk in our elementary schools.

The Ottoson Middle School Principal noted that:

- the cluster model is at risk with the reduction in the number of core teachers,
- with loss of the cluster model comes a loss of teacher common time to discuss students' progress and to meet with parents, as well as to engage in common planning; this puts at risk both consistency and coherency in the curriculum, and the ability to keep track of students' behavioral and academic progress.
- a projected increased in average class size to 35 impacts the type of both instruction and assessment teachers can provide their students, resulting in fewer written assignments, less opportunity for small group instruction and less hands-on learning and laboratory experiments.
- students will also have less time in specials, and some performing arts may need to be moved to before and after school hours
- the social-emotional impact on all students will be difficult to mitigate with reduced counselors

Overall, these reductions move the Ottoson back toward more traditional instruction even though our students have shown the ability to grow with exposure to a richer instructional experience.

## Section 2

The impact of budget reductions noted by the High School Principal echo those of the lower levels:

- with the loss of at least 10 core content area and elective teachers, class sizes may reach 40 in AP classes, and approximately 30 in other classes
- there will be fewer sections of classes, leading to increased scheduling conflicts that will restrict student access to courses of interest
- some popular electives will not be offered, and some AP science classes may be available only every other year
- eliminating the successful double block of English Language Arts and Math will lead to diminished academic success for at-risk students, who will also lose the ability to choose curriculum B classes
- with fewer guidance counselors, the college application process will be less personal
- loss of social worker support for regular education students with behavioral or emotional difficulties may result in more students requiring Special Education
- longer turn-around time on returning graded work will reduce efficacy of formative assessments, while teachers will need to rely more on multiple choice questions

At the High School, as at all schools in the district, students will receive a less individualized learning experience.

### **Conclusion**

The Arlington Public Schools will continue to do our best to continue to provide a high quality education to all of our students.

The APS faculty and staff have been and will continue to be committed, dedicated and passionate about the work we do everyday to support a rigorous learning environment in all of our schools.

## Historical Look at Arlington Public Schools Budgets

For purposes of historical comparison (FY06-FY10), we are relying on Arlington's End of Year Report Data as filed with the MA Department of Elementary and Secondary Education. Therefore the categories shown are those the state requires, but differ from those commonly used in Arlington. For FY11 and FY12, we have reclassified our budget information according to the DESE categories for easy comparison.

**Graph 1** shows School Department Activity in dollars by categories of actual spending from FY06 through FY10 as defined by the MA Department of Elementary and Secondary Education, followed by the FY 11 Budget and the FY12 Proposed Reduction Budget.

**Graph 2** shows School Department Activity by DESE categories as a percentage of total budget.

Expenses for teaching & educational support (which includes guidance, librarians, nurses, psychologists, occupational and physical therapy) grew from FY06 to a peak in FY10 as a percent of school spending and in absolute dollars, but have been declining as a percentage of total budget since FY10 and in absolute dollars beginning in FY11. The results of these changes have been detailed in the Superintendent's Budget Message and in the impact statements presented by Arlington Public Schools' Principals.

Central administration and educational leadership (primarily curriculum leaders and principals) costs have remained flat as a percentage of total budget since FY06 with minimal increase in absolute dollars. In order for these budget categories to remain flat over time, there is no compensation increase for staff or staff is reduced to accommodate contract increases. Both situations have occurred in Arlington. The overall result is diminished leadership capacity.

Tuition to other schools has grown steadily since FY06 both in absolute dollars and as a percentage of total budget. Out of district placement tuition is controlled at the state level based on negotiations between the out of district schools and the state, without reference to the capacity of cities and town to pay the increased rates. When a child is placed in an out of district setting, the district must pay the required tuition, regardless of cost or local budget capacity. Please note, out of district tuition costs continue to rise in Arlington, despite the fact that fewer students are now in out of district placement than in 2006.

## Section 3

**Graph 3** shows the gap between the Town appropriation and the full School Department Budget. This gap, at its widest in FY10, was partially filled by ARRA Stimulus funding. The balance of funds for the School Department came from grants and fees. The gap is projected to narrow in FY12 as the Schools rely more heavily on the Town appropriation.

**Graph 4** shows the percentage change in the number of elementary classrooms plotted against the percentage change in elementary enrollment from FY06 through the FY12 Proposed Reductions Budget. This graph excludes Supported Learning Center classrooms and students. Elementary enrollment has been assumed to be unchanged from FY11 to FY12.

This graph shows why average class is rising so dramatically in the FY12 Proposed Reductions Budget. Student population has risen since FY06, while the number of classrooms has been declining since FY09. The extent of the decline in classrooms in the FY12 Proposed Reductions Budget is dramatically evident in the widening gap.

**GRAPH 1 - School Department Activity by Department of Elementary and Secondary Education Categories in Dollars**

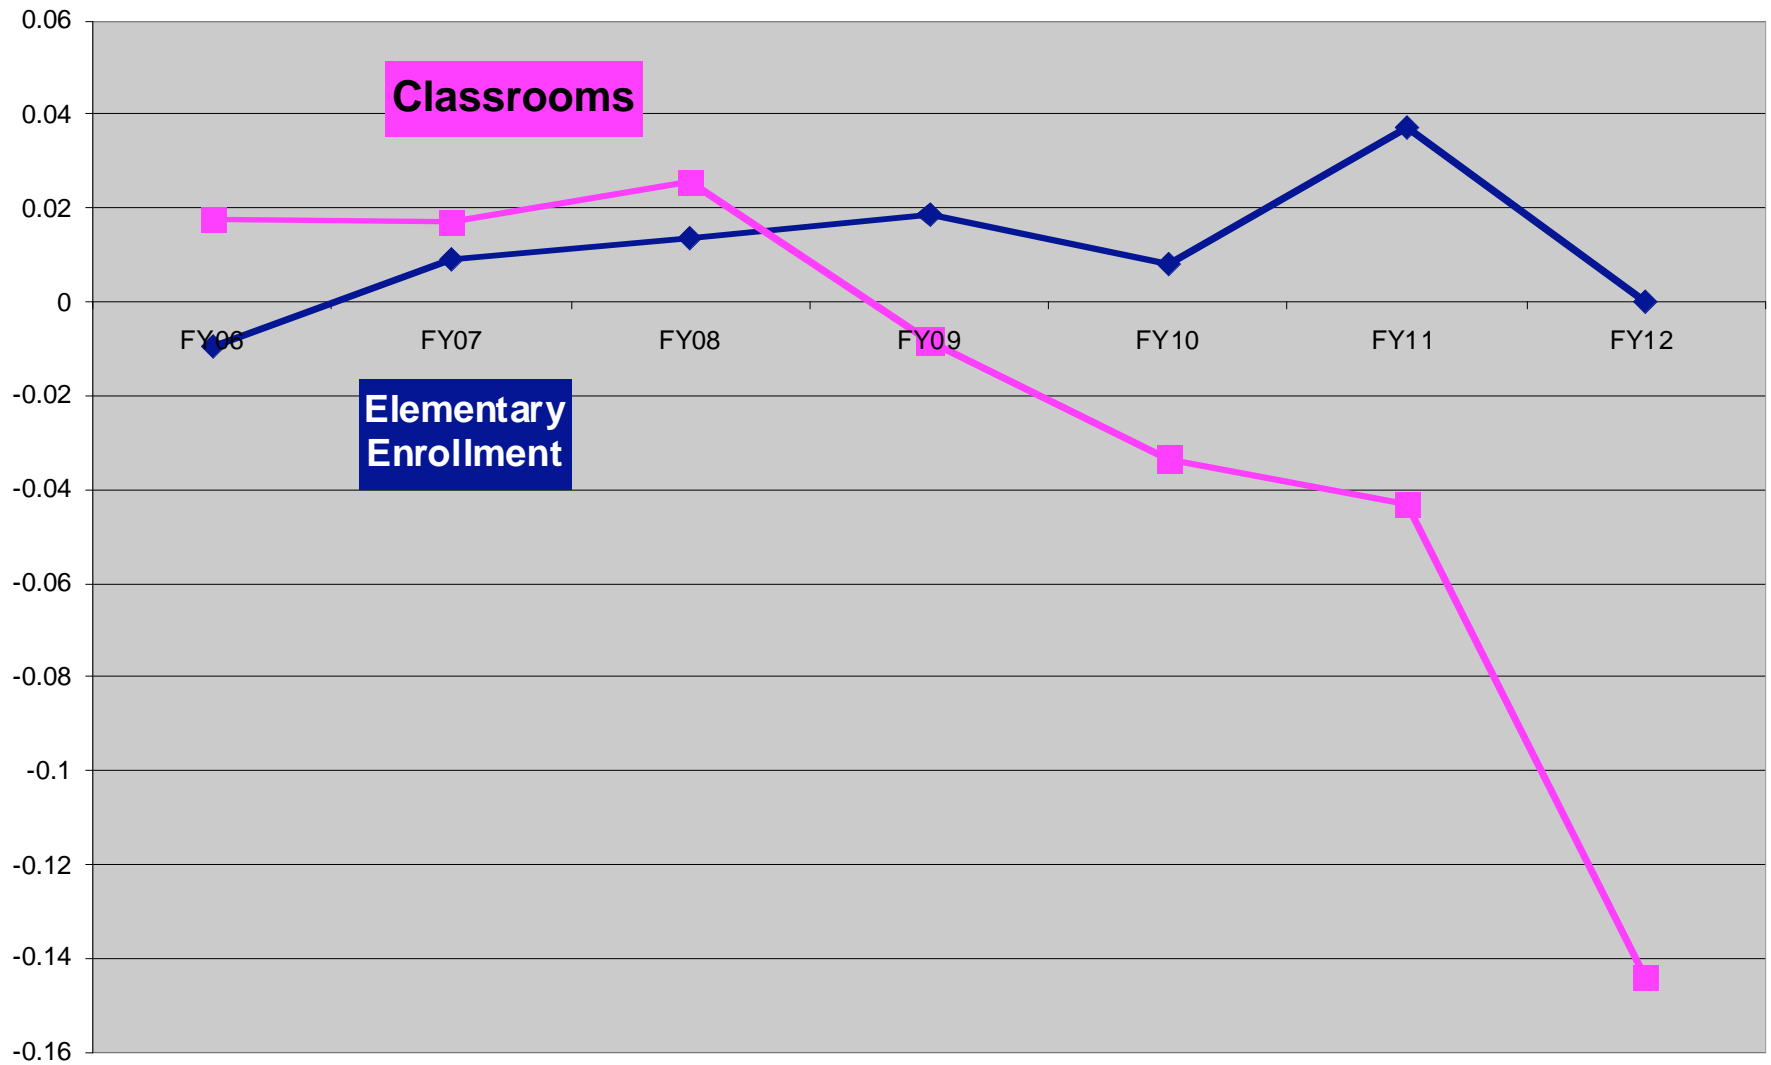

**GRAPH 2 - School Department Activity by Department of Elementary and Secondary Education Expense Categories as a Percentage of Total Budget**

**GRAPH 3 - Total School Budget Compared to Town Appropriation for Schools**

**GRAPH 4 - Change in Elementary Enrollment Compared to Change in Number of Classrooms**

## Funding Summary

The Funding Summary shows a breakdown of the funding changes that are expected to happen as we move from FY11 to FY12. The School Department, unlike other parts of the Town of Arlington, does not get all of its funding from the Town appropriation, which is voted by Town Meeting. In FY11, the Town appropriation was 82.3% of the total School Budget. Grants, revolving fees and reimbursements, and in the past few years, ARRA stimulus funding, make up the rest of the School Budget.

In building the Superintendent's Proposed FY12 Budget, certain funding assumptions were made based on the best information known at the time.

The **Town Appropriation** for FY12 is based on the Governor's House 1 Budget and is given to us by the Town Manager.

**ARRA** funding is expected to be totally lost in FY12.

**Grants** are estimated to be reduced by 10%, except for Teaching American History which is entering the second of its three year award, the Verizon Science grant which ends in FY11, and the Mandarin grant, which is assumed to be continued at a lower level.

**Revolving Fees and Reimbursements** show a variety of changes. Circuit Breaker is assumed to be reduced due to fewer students in out of district Special Education placement in FY11. Kindergarten fees are held to the FY11 level. Tuition In is reduced to reflect a reasonable estimate for a single year. In FY11 the expected funding amount for Tuition In reflects two years of collections: FY10 amounts not received until FY11, as well as FY11 amounts. Athletic fees are increased to reflect the loss of the one time Bridge the Gap funds which helped to support FY11. Instrumental music, Peirce Field rental and Menotomy Preschool fees are all estimated with slight increases to reflect what is happening in FY11. Traffic supervisor rebilling is eliminated, as the traffic supervisors are among the proposed reductions for FY12. Bishop bus fees reflect a better estimate of collections based on our FY11 experience. Bridge the Gap funding is eliminated for FY12. LABBB credits and other fees are eliminated to better reflect our understanding of FY11.

**In total, despite an increase of 4% in the Town appropriation, the loss or reduction in many other areas of funding leaves the School Department with an overall reduction of 2.6% for FY12.**

## **Expense Summary by Funding Source**

The Expense Summary by Funding Source shows two important elements of the Superintendent's Proposed Budget.

The **FY12 Level Service Budget** column shows the cost of maintaining all of our existing activities at their current level next year. Collective bargaining agreements provide increases to staff who do not yet have enough years of service to have reached the top of their pay classification. Additionally, Special Education costs continue to rise, and this has been factored into creating our Level Service Budget. Also, loss of funding from ARRA, grants and revolving fees & reimbursements means a greater reliance on the Town appropriation.

The **FY12 Proposed Reductions Budget** column shows the choices that have been made to maximize our service to students given the funds we do expect to have, understanding that our funding will not be sufficient to maintain all our existing activities. Greater detail will be provided as we drill down into the Budget in later sections.

**The key idea to take away from this view of the FY12 Budget is that while our funding has decreased by \$1,146,009 overall, \$2,858,600 in cuts must be made to accommodate both the loss of funding AND expected budget growth.**

**FY12 Superintendent's Proposed Budget  
Expense Summary by Funding Source**

Funding Summary	Funding Description	FY12 Level Service Budget	FY12 Proposed Reductions Budget	Change Level Service to Proposed Reductions

## Section 6

### **Cost Center Summary**

The Cost Center Summary shows the entire School Department Budget, all funding sources included, subtotaled by Cost Center. Cost Centers represent our various school locations and departments.

For comparison purposes, this view includes the FY11 Budget as voted in the Special Town Meeting in November, 2010. It also includes our FY11 Projected Expenses. These projections are based on seven months of actual information.

In developing the FY12 Level Service Budget, FY11 Projected Expenses were used to inform allocation of funding within the various lines. In past years, the School Department Budget was created at a higher level of summary. With a wish to provide greater transparency, as well as a need to be able to analyze expenditures more closely, the School Department is working toward budgeting at a much finer level of detail.

Beginning in FY11, expense activity is being tracked in more detail than it was previously. Based on what we have seen in the first seven months of this fiscal year, we have created our detailed estimates of where we expect to end up in each line of the budget. Using this, we have created detailed budgets for FY12.

Next year, we will be able to work with final expense numbers from FY11, as well as projected expense numbers from FY12, as we build the FY13 budget. In each successive year, we will have more detailed historical expense information to help us further refine our budgets.

The final column reflects the change between the FY12 Level Service Budget and the FY12 Proposed Reductions Budget.

## Section 6

## Section 7

### **Program Summary**

This view is similar to the Cost Center Summary. It includes the FY11 Budget, FY11 Projected Expenses, FY12 Level Service Budget, FY12 Proposed Reductions Budget, and Changes between the FY12 Level Service Budget and FY12 Proposed Reductions Budget.

The difference is that in this view we are looking at all expenses, regardless of funding source, subtotaled by Program. This Program view allows us to look at activity in our budget by educational themes.

For example, elementary classroom instruction is found in Program 6506 – Elementary Education. At the Middle and High School levels, classroom instruction is divided by areas of subject content, like Math or Social Studies. Program 6507 – Secondary Education is primarily used for supplies, while teacher salaries are to be found under the subject content that they teach.

Program codes 6705 to 6760 are our areas of Curriculum and Instruction (C & I). This is where we find expenses for our curriculum leaders and their modest supply budgets. You may notice that 6745 – Social Studies appears more robust than its counterparts in other subjects. This is due to activity in the Teaching American History grant on top of the normal activity of the Social Studies department.

Program codes 6800 to 6866, as well as 6975 and 6980, capture activity for Special Education.

Code 6915 – Assistant Superintendent shows a slight increase between the Level Service and Reductions budgets. This is due to the reduction of the Assistant Superintendent from half time to one quarter time, and to the addition of half of the salary for a Human Resources position for the School Department. The other half of this position is being funded by the Town.

**FY12 Superintendent's Proposed Budget  
Program Summary**

Program Description	FY11 Budget	FY11 Projected Expenses	FY12 Level Service Budget	FY12 Proposed Reductions Budget	Change Level Service to Reductions (decrease) / increase
6503 - Kindergarten	1,313,904	1,372,186	1,342,794	1,342,794	-

## Object Summary

This is the view familiar to those of you who look at the monthly expense reports. Like the Cost Center and Program views, the Object Summary includes the FY11 Budget, FY11 Projected Expenses, FY12 Level Service Budget, FY12 Proposed Reductions Budget, and Changes between Level Service and Proposed Reductions.

The difference is that in this view we are looking at all expenses, regardless of funding source, subtotaled by Object. Object codes capture the type of expense. This summary view allows us to look at the School Department Budget by broad categories of expense.

This view shows most clearly that we are now tracking our expenditures in more detail than has been done in the past. As you look through this summary you will see that there are many Objects for which there was no budgeted amount for FY11. There are two main areas where this is so: compensation and facilities. In these two areas we are tracking a higher level of detail than was included when the FY11 Budget was created.

In the area of compensation, in FY11 Projected Expenses, we are tracking things like longevity, auto allowances, shift differentials, summer program salaries and temporary help in more detail. However, when we built the FY12 Level Service Budget, we did not break it out at this level of detail. This budgeted detail will be added to the budget in future years.

Facilities is an area where budgeting was formerly consolidated but is now budgeted in greater detail. We are now able to see what actual costs are in various areas, which will be helpful both financially and as a facilities management tool.

## Section 8

**FY12 Superintendent's Proposed Budget  
Object Summary**

Object Description	FY11 Budget	FY11 Projected Expenses	FY12 Level Service Budget	FY12 Proposed Reductions Budget	Change Level Service to Reductions (decrease) / increase
81111 - Administration Salaries & Wages	2,821,347	2,699,116	2,848,312	2,564,569	(283,743)
81112 - Teacher Salaries & Wages	20,851,301	20,669,194	21,714,952	19,443,967	(2,270,985)
81113 - Custodial Salaries & Wages	1,323,576	1,216,806	1,229,171	1,164,171	(65,000)

## Section 9

### **Budget Detail Subtotaled by Cost Center, Program and Object**

This is the most detailed view of the FY12 Superintendent's Proposed Budget. Like the individual Summaries by Cost Center, Program and Object, this budget includes all sources of funding. The columns show the FY11 Budget, FY11 Projected Expenses, FY12 Level Service Budget, FY12 Proposed Reductions Budget and the Change between Level Service and the Reductions budgets.

By looking at the Change column on the far right hand side, it is possible to see the proposed cuts in some detail. \$50,000 was used as an estimated amount for a full time (1.0 FTE) teaching position cut. Other cuts in positions were estimated at average salary amounts for that position.

## Table of Contents for Budget Detail

Cost Center Description	Cost Center Code	Budget Detail Page
Assistant Superintendent	63	page 42
Bishop	6	pages 9-10
Brackett	9	pages 11-12

### **Position Control Comparing FY11 Budget and FY12 Level Service Budget**

The final and deepest level of detail in this budget presentation is the Position Control report. Subtotaled by Cost Center, Program and Object, like the Budget Detail, Position Control shows each unique permanent staff position in the district, as well as additional salary expenses like substitutes and custodial overtime. It compares the FY11 Budget to the FY12 Level Service Budget by salary and by FTE.

To create the FY12 Level Service Salary estimates, step and lane increases, as well as longevity payments, have been calculated based on the last collective bargaining agreement with the teachers' union. Positions in the area of Special Education have been added based on recent experience and expectation of student need next year.

The Position Control document does NOT show the positional reductions proposed in the Budget Detail. Most staff reductions are governed by collective bargaining agreements, which dictate the terms of seniority and certification by which layoffs must take place. Also, scheduling factors may force changes in the reductions among subject areas. It is impossible at this point to specifically identify which particular positions will be eliminated, and we have not attempted to do so.

## **Special Education**

Special Education is an area of interest to many people. Committed to the education of our most vulnerable students, and driven by a wide array of Federal and State mandates, Special Education has been an area of budget growth in Arlington, as in most communities, for quite some time.

Over the last ten years, Special Education in Arlington has averaged between 8% and 10% annual growth. In the FY12 Proposed Budget, Special Education growth has been held to 4.25%, which will require reallocations within Special Education in order to meet the needs of all of our students.

Significant investments in substantially separate programming in prior years have created capacity which will be utilized in FY12. The Supported Learning Centers (SLC) are in three separate strands: SLC A serves children on the autism spectrum, SLC B serves children with social, emotional and behavioral issues, and SLC C serves children with cognitive disabilities. These programs allow us to educate students within our community who in the past would have been sent to out of district placements.

For those students whose needs cannot be met within our district, we provide tuition and transportation to place them in schools which can. Special Education out of district tuition hovers around \$6,000,000 and transportation for out of district placements around \$650,000. Together this represents 43% of the Special Education Budget and 15% of the School Department Budget as a whole for FY12.

A summary of the multiple sources of funding for Special Education has been provided, as well as a Budget Detail of all Special Education activity.

**FY12 Superintendent's Proposed Budget**  
**Summary of Special Education Expenditures Subtotaled by Funding Source**

### **FY12 Chart of Accounts**

In July, 2010, the beginning of Fiscal Year 2011 (FY11), a new chart of accounts was implemented in the School Department. This chart of accounts describes each expenditure by four elements. These four elements are:

- Cost Center – a two digit code identifying the school or department where the expense took place
  - Examples: High School (01); Business Office (66)
- Program – a four digit code identifying the educational purpose for the expense
  - Examples: Elementary Education (6506); Special Education Out of District Tuition Day Students (6848); Custodial Services (6965)
- Object – a five digit code identifying the type of expense
  - Examples: Teacher Salary (81112); Instructional Materials (85103); Power/Electricity (82103)
- DESE code – a four digit code identifying the expense according to the system used by the Massachusetts Department of Elementary and Secondary Education (DESE) for reporting to them on the End of the Year Report (EOYR)
  - Examples: Professional Development (2357); General Supplies (2430); Classroom Teachers (2305)

All four of these elements are used in the MUNIS financial system to describe each financial activity that takes place.

This new chart of accounts allows us to track each transaction in our financial system and know at a glance what it is, where it happened and for what purpose it was done. But even more importantly, this chart of accounts allows us to summarize and analyze our financial activities in many different ways, quickly and easily.

For example, if we needed to look at all activity within Special Education, we could filter the information by Program code. Program codes 6800 through 6866 are all Special Education related, as are the Transportation codes 6975 and 6980. By isolating these Program codes, we can see all Special Education activity quickly and easily. We could just as easily find out how much we are spending on One to One Assistance (Program 6845), despite the fact that these expenses take place throughout many Cost Centers in the district.

## Section 12

Likewise, we can look at the activity within a particular school, let's say the Bishop, by filtering our information by Cost Center (in this case, 06). We can see all the expenses of the Bishop for this year so far, including activities that had not been tracked by school before, like custodial and maintenance.

Finally, looking at activity summarized by Object allows us to monitor trends in our large expense areas, like Teacher salary (81112), Tuition to Other Schools (83201), Fuel (82102), Power/ Electricity (82103) and Natural Gas (82104). The summary by Object has been the basis for the monthly expense reporting which has been provided since September, 2010.
