

## **USE OF PRIVATE CARS TO TRANSPORT STUDENTS**

Liability Insurance of the Town of Arlington and the Arlington School Department does not cover students being transported in private vehicles.

Students should be transported in buses and other vehicles hired for that purpose. Teachers may request the use of the Arlington School Department buses for transportation within town at times other than during regular bus route times, and the use of these buses will be on an available basis with final approval resting with the Superintendent. Requests should be made through the Office of the Superintendent of Schools.
