November 2014

Dear Menotomy Pre-school Parents and Guardians:

I am pleased to share an overview of Menotomy Pre-school's "report card". Report cards answer important questions about a school's overall performance and contain specific information about student enrollment and teacher qualifications, student achievement, accountability, how a school is performing relative to other schools in the district and the state, and the progress made toward narrowing proficiency gaps for different groups of students.

In this report you will find the following important information about our school:

Student enrollment and teacher quality: This section of the report card provides information about the students and teachers in our school as compared to the district and the state.

Student assessment on MCAS and other tests: This section of the report shows how our students are performing on the Massachusetts Comprehensive Assessment System (MCAS) tests as compared to the district and the state. This section of the overview does not contain information since Pre-school students do not take MCAS exams.

School and district accountability information: This section of the report card contains Accountability information, but because of Menotomy's small size there is insufficient data on which to report accountability.

To improve student achievement and close the achievement gap, the District is currently implementing a program improvement initiative at the inclusive in-district preschool. Through program review, restructuring, and coaching our efforts aim to align program design with targeted student outcomes. We anticipate increased child find, response and recognition efforts, and core curricula development to result in increased service and improved student outcomes. Menotomy Pre-school provides services to students identified with special education needs in an inclusive environment with typically developing general education students.

We encourage you to become involved in helping us improve our school. Some of the ways you can become involved are:

- Encouraging your child's learning at home
- Attending parent-teacher meetings and other special meetings
- Serving as a volunteer in our school or district
- Encouraging other parents to become involved

For more information about what we are doing to improve student achievement, please feel free to contact the Pre-school at 781-316-3698.

Sincerely,

Alison Elmer
Director of Special Education

How is our school doing overall?

Accountability and assistance levels		School percentile
Our school	Insufficient data	School percentiles (1-99) indicate how a school is performing overall compared to other schools that serve the same or similar grades. Our school's percentile is below.
Our district	Level 2 One or more schools in the district classified into Level 2 Most schools are assigned a level from 1-5, with those meeting their proficiency gap-narrowing goals in Level 1 and the lowest performing in Levels 4 and 5. A district is typically assigned a level based on the level of its lowest performing school. Placing schools and districts into levels helps districts know which schools need more support, and helps the state know which districts need the most assistance.	
		Overall progress in narrowing gaps Massachusetts aims to reduce proficiency gaps by half between 2011 and 2017. All students - High needs students - Low income students - Students with disabilities - English language learners & former ELLs -
